DETAILED ACTION
EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Crompton on 10/21/2009.

IN THE CLAIMS

Please amend the claims as follows:

19-38. (Cancelled).

Allowable Subject Matter

Claims 1-18 are allowed over the prior art of record based upon the board decision rendered 10/16/2009.

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed medical device that is formed from various medical device components that are bonded together with an adhesive that resists stresses caused by adhesive curing. In particular, a medical device can include a first component and a second component that are fit at least partially over each other. An aerated adhesive layer can be formed or disposed between the first and second components.

The closest prior art of record is Deniega et al. (USPN2004/0064129) and Ferrera et al. (USPN2001/0026666), however these references do not disclose the device as claimed or described above.

Regarding claim 1, the closest prior art of record fails to teach among all the limitations or render obvious the specifics of a medical device with two components that bonded with a aerated adhesive that comprises voids within the adhesive layer as disclosed in the appeal brief filed 4/07/2008.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
